

## Environmental Policy for Coating Kings Limited

As a small enterprise we have a very small Carbon Footprint but appreciate as a valued supply chain partner we have an obligation and willingness to play our part in protecting the Environment, we hope the below shows our customers that we care about this issue and have taken positive action.

By 2030 any transport used by Coating Kings LTD will be Electric and any excess carbon produced by our activities will be traded to give us a positive effect on the Environment.

### **Our Product:**

By Design Coating Kings products are Environmentally friendly; this is achieved in two ways.

Coating Kings Products both protect and preserve the surfaces we and our customers treat as well as prolonging the life of the Surface – hence no need to replace, reducing massively future CO2.

The need to clean the Surfaces treated with Coating Kings Products are greatly reduced, meaning less water and chemicals will be used over the lifetime of the treated surface.

Lastly the footprint of replacing treated Surfaces is omitted having an even great positive effect on our Environment moving forwards.

### **Office Locations:**

All our offices and locations are set up to be as environmentally friendly as possible, all Staff are aware of their responsibilities and all care is taken to reduce our Carbon Footprint and be kind to the Environment.

Where Possible we send all documentation electronically and print almost nothing.

Any paper used is recycled paper as are our Ink cartridges - Since 2020 not more than 2 reams of paper per year have been printed for a combined company turnover of £1.2 Million that's not bad.

All office and warehouse space have had low energy efficient lighting and timers fitted to make sure when not in use no energy is being consumed.

Any consumables for day-to-day requirements are procured using only recyclable materials where possible.

**Packaging:**

All of our goods are supplied in fully recyclable packaging, as are the boxes and packaging used to ship our goods.

**Transport:**

Our chosen Carriers have very strong Environmental policies; this is why we have chosen them to be our transport partners.

Our international carriers are FedEx – you can view their environmental policy below.  
[www.fedex.com/en-gb/about/sustainability.html](http://www.fedex.com/en-gb/about/sustainability.html)

Our UK Carrier is DHL – you can view their environmental policy below

[www.dhl.com/global-en/home/about-us/sustainability.html](http://www.dhl.com/global-en/home/about-us/sustainability.html)

Both carriers have vastly expanded their Electric Fleet and our deliveries are picked up and delivered via Electric Vans in most cases.
