

Product Data Sheet

King Easy Clean.

Product Code: CKG3ECMC04

Description: King Easy Clean for non-porous surfaces is a long- lasting Ceramic coating designed to provide easy clean hydrophobic -Oleophobic properties to a large range of hard non-porous surfaces.

Mostly applied to new surfaces – **Ask for King Anti Graffiti for older, worn surfaces.**

Water and Oils will bead on the treated surfaces and reduce the need for cleaning. Treated with our Non-Leaching Anti-Microbial technology safety is added to the product. The Antimicrobial properties added will greatly reduce SARS-COV-2* and is fully certified to ISO21702: 2019 reducing SARs-COV-2* by 73.7% over a 2-hour period.

King Easy Clean will enhance the life of treated surfaces and have a positive effect on the Environment by reducing the need for harsh chemicals, reduce water consumption and eliminate the need to replace damaged surfaces.

Treated Surfaces will have **UV stability** for the life of the coating.

Technical Data: Supplied on Request.

Treated Surfaces: Glass – Metals – Powder Coating's – Plastics – Acrylics

Surface Prep: Surfaces must be **clean** and **dry**, and all imperfections should be removed from the surface before application can begin.

Application method: Shake well - With a simple wipe on wipe off application method. Using Micro Fibre Pads to apply the product in small circular Motions and then simply wipe off with a clean dry Micro fibre Cloth.
You should work in half M2 areas for best results.

Coverage: 80-100M2

Cure Time: Surfaces will be touch dry in 30 minutes and fully cured in 24 hours.

Warranty: 5 years

Maintenance: When cleaning treated surfaces there is no need to use harmful Chemicals or abrasive cleaners – just simply wipe with a clean cloth, using warm soapy water. In case of Hard Water areas, you can dilute, 3-1 a Water and White Vinegar mix to remove any stubborn hard watermarks that may have dried on the surface.
